Tuesday, April 7

10AM to 12PM

Portfolio Center

623 S Wabash RM 307

Indian born artist-educator-activist Subhankar Banerjee uses photography to raise awareness about issues that threaten the health and well-being of our planet. Since late 2000 he has focused all his efforts on indigenous human rights and land conservation issues in the Arctic. His photographic work has been instrumental in the ongoing conservation efforts of the ecologically and culturally significant areas of the American Arctic, including, Arctic National Wildlife Refuge. His Arctic photographs have been exhibited in nearly forty one-person and group exhibitions in the United States and Europe.
